SUMMARY

Full Stack Developer with hands-on experience building responsive and high-performance web applications. Skilled in developing scalable frontend interfaces, building backend APIs, and integrating databases to create complete end-to-end web solutions. Experienced in implementing reusable component architectures, optimizing application performance, and deploying production-ready applications. Passionate about building fast, scalable, and user-centric digital products.

PROJECTS

Data Engineering - MovieLens Recommender Project

- Built a content-based movie recommendation system using cosine similarity.
- Implemented text preprocessing and feature extraction using TF-IDF.
- Strengthened problem-solving, data handling, and algorithmic thinking skills.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn.

Zenvy WebTech Agency Website

- Built a responsive multi-section website with component-based architecture.
- Implemented interactive UI animations using Framer Motion and GSAP to enhance user engagement.
- Optimized performance, responsiveness, and modern UI standards for production deployment.
- **Tech Stack:** NextJs, Typescript, Tailwind CSS, GSAP, Framer motion.

EDUCATION

Bachelor of Computer Application

Sarala Birla University, Ranchi

2023 – 2026 (Pursuing)

INTERNSHIP

Frontend Development Intern

CDC Pvt. Ltd. | 45 Days

- Developed responsive UI components for analytics dashboards using React and Tailwind CSS.
- Improved usability and layout consistency across client-facing pages.
- Assisted in post-deployment maintenance and UI bug fixes.
- Collaborated with team members to enhance performance and user experience.
